**RE: *In re Valsartan, Losartan, and Irbesartan Products Liability Litigation,*
No. 1:19-md-02875**

Dear Counsel:

I'm writing with regard to Judge Vanaskie's ruling at today's conference that ZHP identify which English documents have Mandarin translations, including those in the production, as well as those outside of the production, for example those created for the benefit and preparation of a witness for a deposition.

Please let us know immediately which documents meet this criteria and where they are located in the production. Please also confirm that an overlay file will be produced with metadata allowing Plaintiffs to easily connect the English and Mandarin documents. For documents outside the production please ensure that the production clearly identifies the English language documents they match up to as well.

Thank you for your immediate attention to this matter, as we need this information in order to be able to determine which documents will need to be machine translated.

Very truly yours,
